## WHY KNOWLAND SHOULD GO BACK TO CONGRESS

THE friends of Congressman Joseph R. Knowland have sent the following circular to the electorate of Alameda county: **JOSEPH R. KNOWLAND For Congress.**

To the Voters:

Reward a faithful public servant by voting for Congressman Joseph R. Knowland at the primaries on Tuesday, September 3. The polls will be open between the hours of 6 a. m. and 6 p. m.

Congressman Knowland is now completing his fifth term and ranks as number two among the California delegation in the House in point of continuous service. He has one of the most important committee assignments—Interstate and Foreign Commerce—of any member from the Pacific coast.

He has secured \$1,263,208 for Oakland harbor and obtained two government surveys therefor.

Public buildings have been obtained for Berkeley and Alameda.

He has fought white slavery.

He voted for the election of United States Senators by the direct vote of the people.

He made the fight in the interest of American shipping, securing for California and the Pacific coast free tolls for American ships in the coastwise trade, and the adoption of an amendment to the canal bill to prevent railroad domination of this waterway, thus insuring the fullest possible benefits to the shippers and consumers of California.

In connection with his fight for free tolls through the canal William R. Wheeler, manager of the traffic bureau of the San Francisco Chamber of Commerce, who was in Washington during the entire contest, said, in writing to Mr. Knowland:

"To you, and you alone, is due the credit for getting the free toll and railroad prohibitory sections through the House."

The secretary of the Navy League of the United States said in a letter to Knowland:

"I consider the Panama canal bill to be one of the greatest pieces of constructive legislation ever passed by Congress. I certainly think you are entitled to a large share of the credit, and hope the people of your congressional district will show their appreciation of your splendid work."

The commissioner of navigation, Hon. E. T. Chamberlain, wrote Congressman Knowland as follows:

"Accept my cordial congratulations upon the signal success of your hard campaign for free ocean-borne commerce in American ships through the Panama canal. It will do more to promote the maritime importance of the United States than any other bill which the House of Representatives has passed in eighteen years."

Max Thelen, attorney for the Railroad Commission of California, wrote Mr. Knowland as follows, under date of March 30, 1912:

"I wish to express to you the thanks of the other commissioners and myself for the fine work you are doing on the Panama canal bill."

Frank A. Leach, one of Oakland's well-known citizens, gives the following reasons for supporting Knowland:

"In recognition of the splendid record you have made, the efficient service as representative of this district, your independence of all interests, great or small, and the further fact that you have reached ranking positions on committees giving you influence and power, only attainable after years of service, the people of your district should be unanimous for your return."

Hon. W. R. Davis, one of the original organizers of the Lincoln-Roosevelt League, said among other things:

"You have shown that steady, practical working activity which brings influence to a member and accomplishes results for his district, state and country at large, not the mere narrow local view, but a working basis of all successful legislative endeavor."

Mayor Mott said:

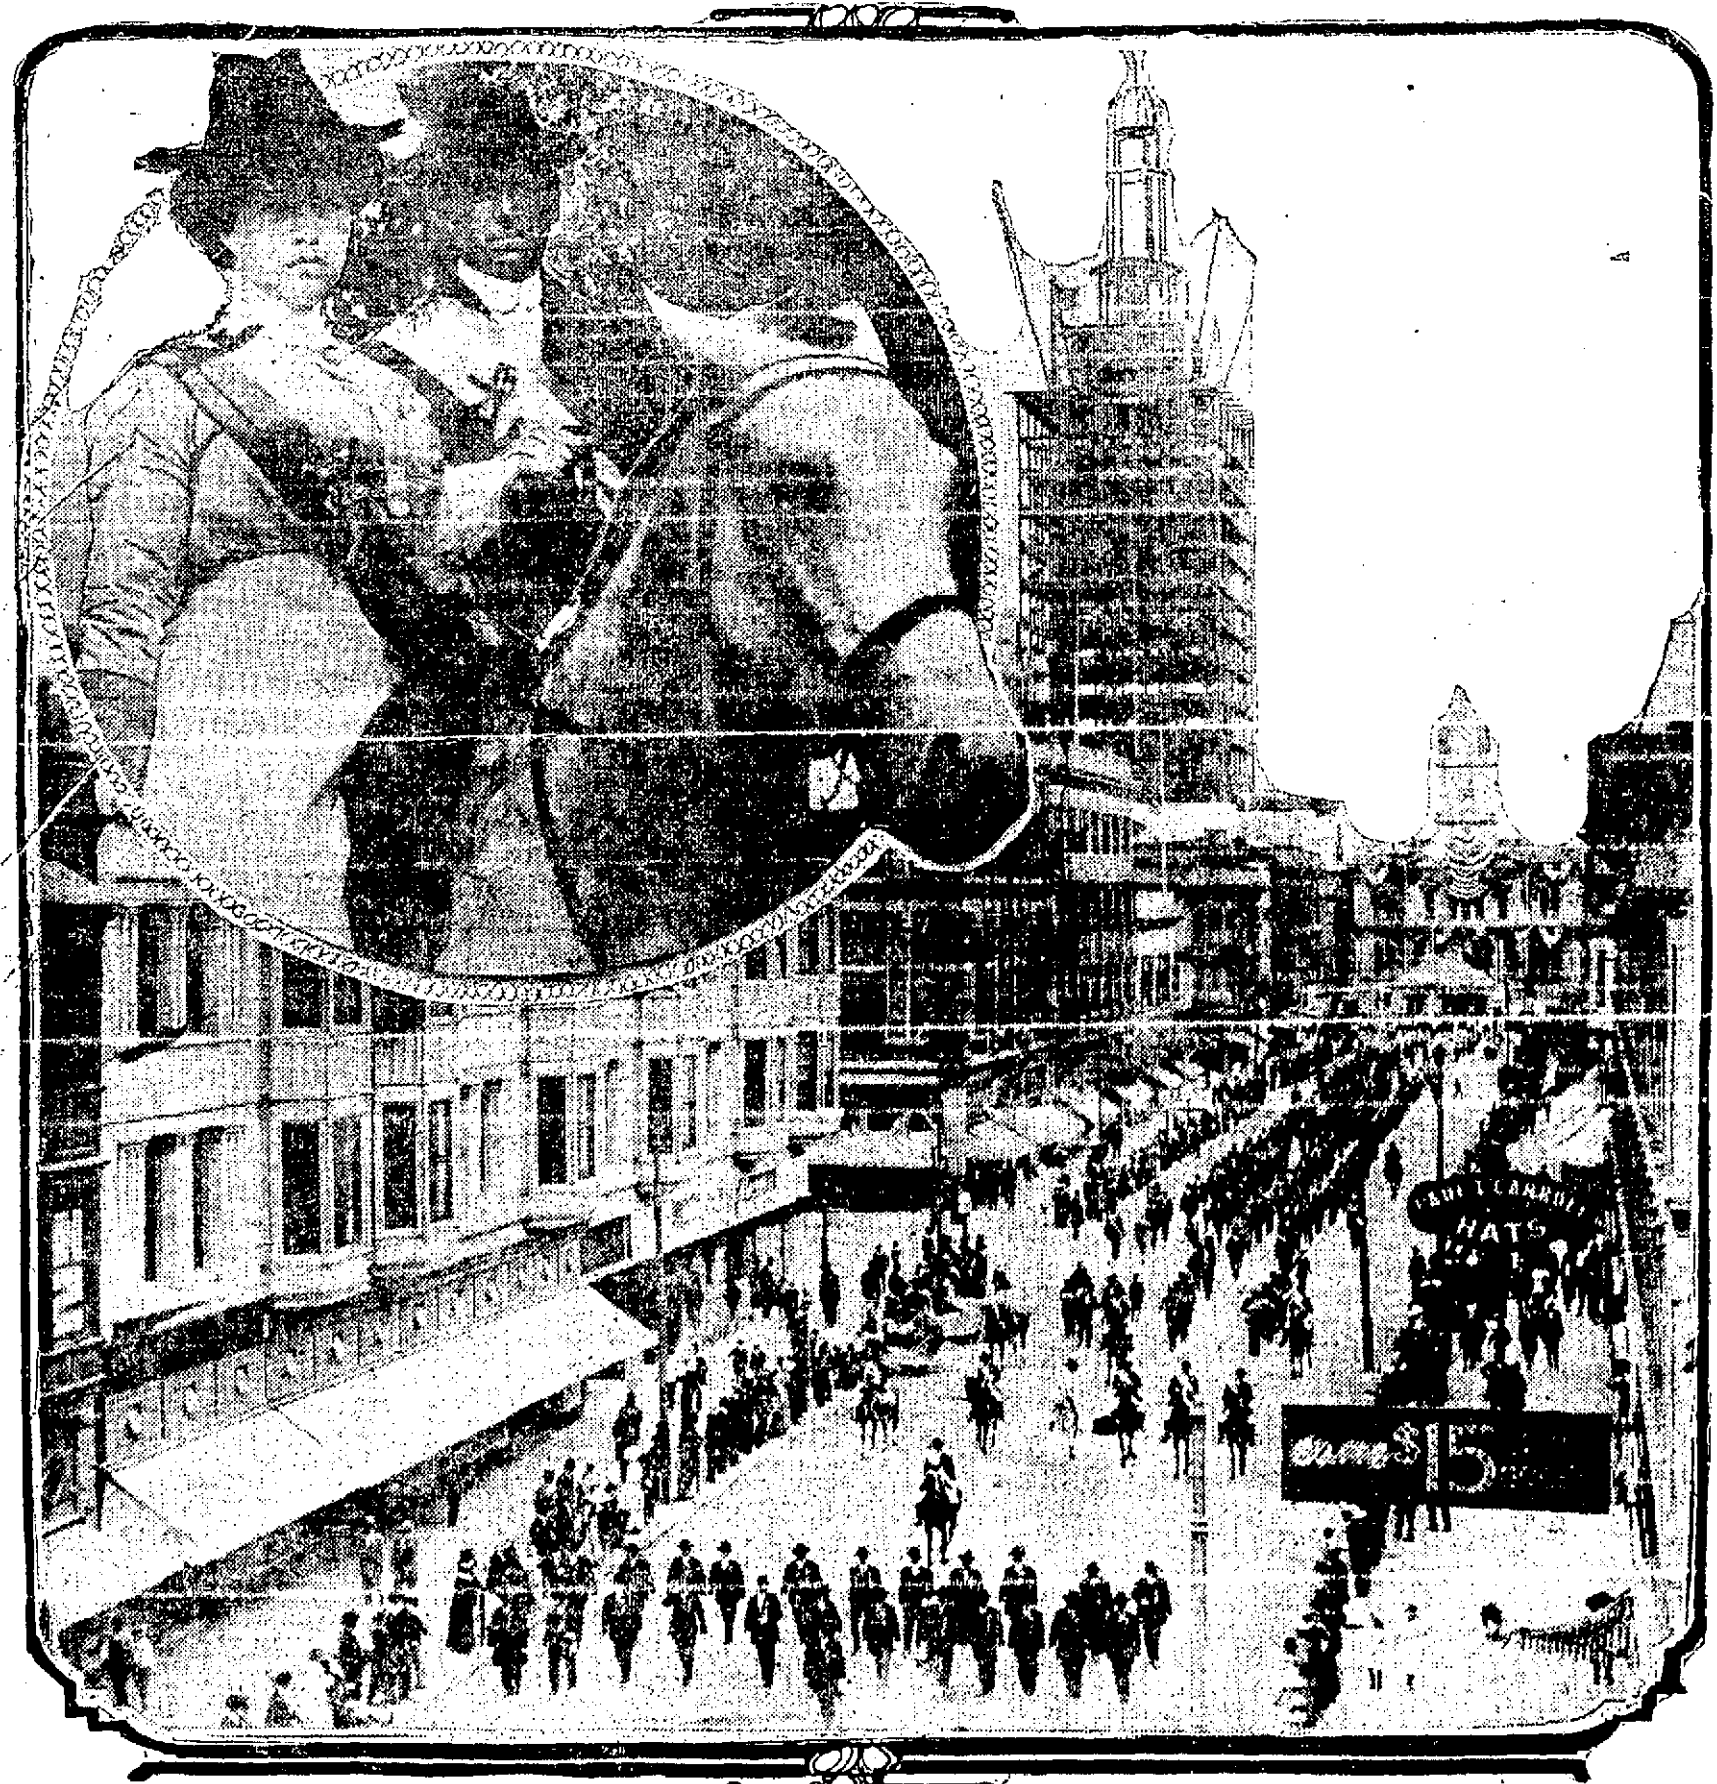

"Congressman Knowland has been a real friend of Oakland. His years of service are a distinct and important asset to this city. We cannot afford to lose; that at this time, in view of the big things ahead of us. It would be the height of folly not to continue him in his place at the capital."

Mrs. J. P. Hume, a well-known club woman of Berkeley, says of Mr. Knowland:

"I firmly believe that Mr. Knowland, better than any one else, typifies those ideals which we demand."

Hon. Victor H. Metcalf, cabinet officer under President Roosevelt, says that President Roosevelt said to him: "I wish that California would send more Knowlands back to Washington."

## Engineer's Skull Crushed By Heavy Tug Machinery

SAN FRANCISCO, Sept. 2.—Crushed to death by the machinery on the tug Dauntless while the boat was near Harbor View shortly before 7 o'clock this morning, John E. Fenlon, first assistant engineer, met with a horrible death. His body was found an hour later by Chief Engineer George W. Driver and Foreman J. W. Sims. It is supposed that Fenlon stumbled while entering the companionway, and fell down, his head striking under the cross-head of the engine. The heavy piece of steel which runs up and down in vertical fashion, struck the side of his skull repeatedly, crushing it to pieces. As soon as the tug reached the dock on this side the corner was notified. Fenlon was a single man and resided at 1701 Leavenworth street.

## Fear for Safety of Hope-Doegs in Mexico

LOS ANGELES, Sept. 2.—Fears were entertained here, today, for the safety for Mr. and Mrs. Harold Hope-Doeg, the latter a member of the Sutton family, and herself a famous tennis player, who are now in Mexico with their four children. The last word came from them, five weeks ago, while they were in the State of Sonora, near Cananea, and, as that district has been reported as being infested with rebels, relatives of the Hope-Doegs here fear harm has overtaken them. Hope-Doeg is a mining man, with extensive interests in Sonora and Chihuahua.

## CITY TAKES HOLIDAY TO ASSIST IN FESTIVITIES

Clarence Darrow Speaks to Unions of Bay District at Shell Mound

FIFTEEN thousand men marching to the music of seven bands and forming a parade forty blocks long passed through the streets of the city this morning, eclipsing in point of numbers all previous demonstrations in behalf of labor. Practically all lines of industry were closed in honor of the day, and the fluttering of American flags on all downtown buildings, together with the national colors that bedecked the parade, gave the demonstration a patriotic tinge. The scarcity of floats and spectacular features which formed a part of the parades of former years was made up today by the number of men in line, the nattiness of uniforms and the air of responsibility and sober strength conveyed by the demonstration.

Under the careful supervision of Grand Marshal J. A. Lloyd, the big parade was formulated along Tenth street, from Market to Clay, and at 10 o'clock promptly the line of march was begun, moving west along Tenth street to Clay and then north to Fourteenth street, and marching and countermarching along Broadway and intersecting streets.

Thousands of people crowded the sidewalks along the route of the procession, which took one hour to pass Fourteenth and Broadway. Cheers and applause were freely given to the marchers.

**TWO STRIKING FLOATS.**  
The two most striking floats of the day were those furnished by the Miners' union, with a colorful design of a great floral lamp and a girl in white, who held a zipper in her hand and reigned supreme on a carpet of marigolds, and one connected to the moving picture operators, depicting the landing of Columbus. Moving picture machines formed a part of the striking float.

**GUARD OF HONOR.**  
Leading the entire pageant came Grand Marshal Lloyd and a guard of honor, consisting of Captain Thomas Westoby and the following: J. T. Bloomer, Al. Miner, E. Harlow, B. E. Sawyer, Thomas J. O'Brien, J. S. Christie, J. L. Carey, Asa M. Thresher, W. E. Reed, L. M. Blumrock, G. W. Hargreaves, J. E. Armstrong, Ian P. Sullivan, C. A. Drolette, Jas. Morrison, Frank A. Loring, E. W.

## Dogs Are Eaten by The Poor, Belief

## PERISH IN BURNING FACTORY

Two Persons Believed to Have Lost Their Lives at National City

Mysterious Explosion Destroys Building; Thirteen Employees Still Missing

SAN DIEGO, Sept. 2.—Thirteen men, women and children are missing and it is believed that at least two of them have perished in the flames which followed the explosion in the building occupied by the National City Macaroni factory at National City, a San Diego suburb, shortly after 10 o'clock last night.

The building was completely wrecked, flames finishing the work which the explosion started. Only charred embers remain today and through the ruins a force of volunteers is digging in an effort to find the bodies which it is believed lie in the ruins.

**SEARCH IS FUTILE.**  
Fire Chief Atwater of National City is directing the search, but up to 2 o'clock this afternoon little progress had been made. Gas entered into the explosion, but whether it was started by dynamite will probably never be known. The building was occupied by a number of Italian men, women and children.

At least fifteen occupied the place. None of these could be found this morning. A. Marolo and M. Logro, two of the tenants, failed to report for work this morning and this is taken to indicate they probably lost their lives. The families of these men are also reported missing, as are R. Tosen and family. Marolo was seen in San Diego last night leaving for home an hour before the explosion.

**GAS MAY HAVE IGNITED.**  
The theory is that he entered the house while the other inmates were asleep, lit a match to aid him in finding his room and the explosion of escaping gas followed. The gas theory is entertained by reason of the fact that when the fire department arrived on the scene flames were issuing from a large gas pipe in the center of the building. The lower floor of the place was occupied by a macaroni factory, the upper floor being used for sleeping and housekeeping apartments by the Italian families. C. H. McKeown and wife and Wm. Kemp, who reside nearby, witnessed the explosion. They say it came without warning and was followed in a few moments by flames. The building was owned by Thomas H. Work. County Detective McDuell is at work on the case.

The boy was playing with his father's pistol when the weapon was accidentally discharged, the 44-caliber bullet smashing the bones in his right elbow and entering his abdomen, where it lodged in his bowels. The boy was rushed to a hospital, but died at 10:30 o'clock.

## SEVEN KILLED IN TRAIN SMASHUP

Wreck Occurs on Chicago & Northwestern in Bleak Woods.

SHAWANO, Wis., Sept. 2.—Seven persons, including nearly the entire train crew, were killed and ten injured, several seriously, early yesterday when a fast train of the Chicago & Northwestern railroad was derailed in a washout five miles south of this city. A cloudburst caused the washout.

W. D. Cantillon, general manager of the railroad, was on the train, in his private car, with his family and a party of railroad friends, but all escaped injury.

The train was wrecked in a bleak part of the northern woods, and it was hours before help could arrive. Meanwhile, Alexander Scholz, a multi clerk, was pinned under the wreckage, while every moment it was feared that fire would start in the debris. He died later.

Cantillon took personal charge of the relief work.

The train consisted almost entirely of sleeping cars, en route to Chicago and the South, with returning vacationists from the Northern woods. There were eight sleepers on the train, but only one was derailed, and the passengers there suffered only slight injuries.

The Wausau State Baseball League team suffered, six of its members being hurt, one of club shortstop, losing an arm, while Elmer Korman may never be able to play ball again.

## S. P. IS TO MAKE GREAT EXHIBIT

Workings of Big Transcontinental System Will Be Shown at Fair.

SAN FRANCISCO, Sept. 2.—The Harriman system of western railroads is to be one of the highest exhibits at the coming Panama-Pacific Exposition. It is proposed to produce an exhibit that will show to the world all the workings of a big transportation concern and illustrate as far as possible the various methods employed in developing a country's resources and populating it with industrious communities.

This announcement was made yesterday by Robert S. Lovett, chairman of the executive committee of the board of directors of the Harriman lines, who arrived here in a private car from the north.

"We have given this matter careful consideration," said he, "and agreed that the project should be carried out in an adequate and fitting manner. The details have not been decided. In all probability the various roads in the system will follow some general plan of arrangement for the exhibit, which I expect will be opened in the name of the Southern Pacific Company, which is so closely related to San Francisco in a commercial way and is part of the State's history."

Judge Lovett is making his second annual inspection tour of the Harriman lines since he was chosen to succeed the late E. H. Harriman in the guidance of the destinies of the system. He has been in the north for a week.

Commander Campi and 150 Men Commit Many Depredations.

CANANEA, Sonora, Mexico, Sept. 2.—Colonel Emilio Campi, the rebel commander in this district, made a raid into Santa Cruz late Saturday night with 150 men. All of the bridges between that place and Nogales were burned and much loot carried off. The railroad company made repairs Sunday morning and attempted to run a train from Cananea to Nogales, but was forced to return, as all culverts were also found destroyed.

Campi, with his men, left Santa Cruz Sunday morning, going in an easterly direction.

**ARM FOR PROTECTION.**  
JUAREZ, Sept. 2.—People of the state of Sonora will be armed by the federal government in an effort to check the progress of rebels in the border states to the west. According to officials here the government plans soon to import 5000 rifles. The bulk of the federal army is in Chihuahua state, recently deserted by rebels below Juarez.

**DISCOVER PLOT.**  
MEXICO CITY, Sept. 2.—A plot by Zapatistas to capture and loot the capital has been discovered by the police here. Papers taken from an agent of the Zapatistas after he had been arrested revealed the plan and information obtained from the agent resulted in the finding of one hundred guns and a quantity of ammunition and bombs.

The Zapatistas had planned their attack for September 15, a holiday. A plot by the rebels to capture the capital has been discovered by the police here. Papers taken from an agent of the Zapatistas after he had been arrested revealed the plan and information obtained from the agent resulted in the finding of one hundred guns and a quantity of ammunition and bombs.

Alfonso Miranda, who is operating in the state of Mexico, appears to have been the author of the plot.

**FIGHT MADERO AUTHORITY.**  
MEXICO CITY, Sept. 2.—In seventeen states 18,000 rebels, according to estimates of representatives of foreign governments, are fighting against the authority of President Madero, notwithstanding he has been fighting his country's rebellious citizens for six months.

For one week the government has been waging war under a special law which provides for suspension of constitutional guarantees under which the army has the right to kill those captured in battle, even though wounded. The rebels in most regions have promised retaliation.

Numerous cases of the hanging of men who refused to provide the Zapatistas with money have been reported. One band of "volunteers" rode to the hills in the neighborhood of the capital of the state of Puebla.

One man at Santa Clara, Aguascalientes, charged one at Santa Maria, shot another at San Antonio Cacalotepec and with clubs beat another at Tonantzintla until he died. The victims were individuals not friendly to the rebel cause.

There are half a dozen or more rebellions in progress, the only common cause being expressed in the demand "Madero must resign."

A new focus of revolt was unofficially reported to have developed Sunday in the Huastaca region in San Luis Potosi, near the eastern limits of the state.

A number of all wells owned by foreigners in the state of Jalisco the rebellion is gaining ground there. Like most of the regions now affected, the apparent motive of the rebels is the collection of 20,000 pesos in money were secured.

**TENANCINGO, Mexico, Sept. 2.**—A force of 200 Zapatistas was reported to have been fighting in a four-hour fight with the federal troops last night about a mile from this town.

The rebel loss was said to have been six killed and one wounded. The federal troops numbered 200, advanced on the rebel position under cover of a sharp cannon fire and put the rebels to flight.

**FEDERAL FORCES DEFEATED.**  
EL PASO, Tex., Sept. 2.—Belated reports were received here today of a battle a day or two ago at Cuchillo Parado, in which the federal forces were defeated. At last reports federal volunteers led by Colonel Segarra, belonging to General Sanchez's command from Ojima, were trapped in a canyon and fighting desperately. At this juncture all wires were cut in the vicinity of the fight.

The rebels participating are of the group of 1200 reported to be under command of General Pascual Orozco, the rebel commander-in-chief. It is thought Orozco wishes to take Ojima in order to secure a large quantity of arms sent there to equip federal volunteers and troops which have never been organized.

Sergeant Fred Schroder, one of the oldest and highest esteemed members of the Oakland police force, who has been on a three-months' leave of absence, to revisit the parental home in Germany, returned two days ago, and resumed his duties in the police force, this morning.

Schroder was welcomed back by his friends and had many anecdotes to tell of his trip to Europe.

Sergeant Schroder is known as the "big man" of the Oakland Police Department. He stands 6 feet, 3 inches in his socks and weighs well over 300 pounds, but on account of his splendid build and bearing hardly gives the impression of being an exceptionally large man. Since he joined the force he has never carried a policeman's baton, accepting for parade purposes, and has never had occasion to use a weapon, always relying on his wonderful strength in handling prisoners and in riot situation.

**EXPECTS TO GAIN VOTES IN THE ENEMY'S CAMP**

## FAIL TO IDENTIFY FRIEND OF ARTIST

Woman Who Accompanied Sculptor Potter Has Name Withheld.

SEATTLE, Sept. 2.—Every effort to identify the woman who accompanied Louis Potter, the sculptor, to Seattle and who was with him when he died in an obscure house, this latter as a literary person has come to naught. The woman appears to be simply supplied with funds, and her friends have exerted sufficient influence to protect her name, the coroner refusing to disclose her whereabouts.

Some friction has developed between the prosecuting attorney's office and the coroner because the latter delayed ordering the arrest of the Chinese doctor who treated Potter. He has not been apprehended. The prosecutor is now attempting to protect his name, while under placing Potter's woman companion under bond, but the coroner declared he was convinced that was unnecessary, as he had assurance she would be available if wanted as a witness.

In searching the room after Potter's effects had been removed, last night, four letters addressed to Miss Martha Miller, Riverside, Cal., and bearing postmarks of 1903 and 1904, were found in a bureau drawer, but the landlady was unable to say who the writer was. Potter's companion or had been in the drawer by a previous lodger.

**LIVED IN RIVERSIDE.**  
RIVERSIDE, Sept. 2.—Miss Martha Miller, said to have been the mysterious woman companion of Louis Potter, the Seattle sculptor, who died while under the treatment of a Chinese doctor in Seattle, formerly lived in Riverside.

Miss Miller came here 15 years from Nashville, Tenn., according to those who remember her. She taught music for a year and is also said to have done literary work for certain publications. She left here presumably for Colorado on account of ill health, and later it was reported that she had died, but the report was never confirmed.

During her residence in Riverside, Miss Miller was regarded as somewhat eccentric by those with whom she came in contact.

**TO INDICT HEADS OF 'VICE TRUST'**  
NEW YORK, Sept. 2.—District Attorney Whitman believes he has sufficient evidence to warrant indictments for the heads of the so-called "vice trust" to discredit by false affidavits several of the assistants who have been investigating the graft phase of the Rosenthal case.

Word of the plot came to Whitman yesterday and it is said several conspirators already have fled the city. Having failed in this attempt it is now said that the leaders of the underworld will confine their attention to hampering Whitman at the trial of the alleged Rosenthal conspirators, and if necessary will attempt to spirit "equals" out of the city.

Private detectives have placed before Whitman information that several leaders of the "vice trust," which runs a chain of disorderly houses here, together with a former state assemblyman and a police captain, have raised about \$50,000 with which to purchase affidavits that certain county officials investigating police black-mail had been guilty of accepting money for failing purposely to obtain convictions against disorder houses. A private detective working with the "trust" disclosed the "conspiracy."

**ASST. SUPERINTENDENT OF NEW YORK SCHOOLS DIES**  
BUFFALO, N. Y., Sept. 2.—Dr. Matthew J. Elkan, assistant superintendent of public schools of New York City, and for forty years identified with the public schools here, is dead at a hotel here. He had been on a trip through the West, where his heart was affected by the high altitude. Dr. Elkan was born in Buffalo, N. Y.

**The Men Who Succeeded**  
as heads of large enterprises are men of great energy. Success today demands health. To all is to fail. It is utter folly for a man to neglect his health, run down, and then wonder why he fails. I never put him right on his feet in short order. Four bottles did me more real good than any other medicine I ever tried. Write to Chas. R. Allen, Sylvan, Ga.

### TWO ARE SHOT BY CRAZED RANCHER

One Victim Dies and Second Has Bullet in His Shoulder.

ENAVILLE, Idaho, Sept. 2.—John Lundquist, a miner aged 48 years, is dead and his son-in-law, Silvester Jarvey, aged 28, is in a hospital with a bullet in his shoulder, both having been shot by John Louma, a rancher, late yesterday. Louma retreated to his cabin in the hills two miles from town, where he barricaded himself and is holding a force of a dozen sheriff's deputies at bay. He has a rifle and is well supplied with ammunition. Louma, who always had borne a good reputation, fired upon his victims as they came from a Socialist meeting. Before opening fire he remarked: "I'll get all of you fellows if I have to kill fifty of you."

It is believed he suddenly went insane.

### CREW OF "HOOT MON" SPEND NIGHT ON BAY

SAN MATEO, Sept. 2.—Five members of the Peninsula Club, who were returning in a gasoline launch from an outing with the Aeolian Yacht club, spent Saturday night on the waters of San Francisco bay, half way between Redwood City and San Mateo, while away the night hours aiming deep sea ditches and tried to make the best of the fact that the launch was marooned.

On the cruise from Redwood City it was found necessary to put out into the bay to avoid a rocky point which obstructed the course of the launch. Just as the amateur mariners reached a secluded spot in the bay little frequented by other craft, the engine ceased operations for the night, and the engineer was unable to coax it into action until the dawn of morning.

The launch party arrived here at 10 o'clock yesterday morning. Those in the party were F. A. McDonald, Herbert Howe, T. M. Palmer, E. A. Lindeman and C. P. Henderson. Their good ship was the "Hoot Mon," owned by C. P. Henderson.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all druggists. Write to Geo. B. Frick Co.

## BARGAIN ROOM

The number of instruments we are taking in exchange on Pianola Pianos and Grands is rapidly increasing. In addition, our growing business means more sample pianos, more damaged and rental pianos and player pianos to dispose of. Hence, we have opened a permanent "Bargain Room" in which will be conducted a permanent clearance sale of these instruments. The purpose of the "Bargain Room" will be to dispose quickly of the many instruments received from the following sources:

1. Instruments taken in exchange.
2. Instruments returned from rental.
3. Instruments damaged in transit.
4. Sample pianos and player pianos.
5. Shopworn instruments in stock over 6 months.

The "Bargain Room" contains both new and used Pianos, and the prices will be at all times the lowest in Oakland.

It is the fixed policy of this "Bargain Room" never to be undersold, and we always invite a careful comparison of prices with the "sale prices" of others, for the prices in our "Bargain Room" are the lowest.

As is the case throughout our establishment, every instrument is tagged with the lowest price marked in plain figures, every purchaser receives the benefit of Kohler & Chase service, and our policy of Satisfaction or Money Returned is followed out strictly to the letter.

In addition to the price tag, there will also be found on each piano an accurate history of the instrument so far as we know it.

Space here does not permit the listing of the instruments displayed in our "Bargain Room," but we assure you that the bargains on display now are worth coming to see. We particularly call your attention to the following instruments, which must be seen to be appreciated:

## STOMACH SICK, SOUR, UPSET AND FULL OF GAS? PAPE'S DIAEPSIN

In five minutes! Time it! All Indigestion, Heartburn and Dyspepsia gone and your stomach feels fine.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diaepsin and in five minutes you will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diaepsin occasionally keeps the stomach regulated and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diaepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is astonishing. Please don't go on and on with a weak, disordered stomach; it's so unnecessary.

## NEGOTIATIONS FOR PEACE HASTENED

Proposition of Foreign Minister  
Spurs Turkey to  
Action.

CHIAISO, Switzerland, Sept. 2.—The proposition of Count Leopold von Berchtold, the Austro-Hungarian Foreign Minister, that autonomy be gradually given all the European provinces of Turkey, has spurred Turkey to hasten the unofficial negotiations for peace with Italy, which are in progress in Switzerland.

The Turkish delegates to the peace "conversations" repeatedly have insisted upon the abrogation of the law passed by the Italian Parliament last February, annexing Tripoli to Italy, as advancing the proposition that the government of Tripoli be entrusted nominally to a prince appointed by the Sultan, but chosen by Italy. Among those urged by Turkey for this office is Caraman Ali Pasha, a descendant of the ancient rulers of Tripoli, who is now mayor of the city of Tripoli, which is controlled by Italians.

But the Italian Premier, Signor Giolitti, has steadfastly refused to concede this point, as he also has done in the proposition that Tripoli be given to Italy, but that Cyrenaica remain nominally Turkish.

Signor Giolitti firmly asserts that the entire question between Turkey and Italy must either be settled according to the desires of Italy or that the war between the two countries continue.

50,000 SEE KEITH  
PAINTINGS IN WEEK

SAN FRANCISCO, Sept. 2.—More than 50 persons visited the Keith collection of paintings in Union state Park Memorial Museum during last week, according to the tally kept by Professor George H. Thomson, the curator. These paintings, the work of a Californian, even more highly appreciated since his death than before, are representative of his best work, and place him as one of the foremost landscape painters of the day. Yesterday, the gallery was crowded with admirers of Keith's work, soon to be taken away and being in some of the most important in the collection. The paintings will be on exhibition for two months when they will also place in the Bayshore Museum.

## NATION'S MILITIA IS ENTHUSIASTIC

Country-Wide Maneuvers Responsible for Revival of Interest.

WASHINGTON, Sept. 2.—Reports thus far received by officers of the War Department on the recent country-wide military maneuvers indicate that the militia establishment of the nation is more enthusiastic and of greater force than since 1898 when the war with Spain aroused the citizen soldiery.

The regular army, charged by the same maneuvers, is regarded as a more efficient fighting force, because of the Texas mobilization and its participation with the militia in maneuver camps.

Regular army officers attribute the greater interest taken in the military largely to frequent rumors of trouble with Mexico and the unrest in Central America.

In the absence of official reports from the umpires who officiated at the various problem maneuvers, including the attacks on New York and San Francisco, military experts last night were not prepared to comment at length on the lessons learned from the field exercises. It was admitted, however, that the unofficial reports indicated the analysis of the movements against both cities would disclose defects in their defenses.

The maneuvers which lasted eight days cost close to \$2,500,000, of which the federal government provided \$1,550,000.

REQUESTS POLICE TO AID

## Y. M. C. A. FEATURED IN LABOR PARADE

The Oakland and Berkeley Branches Are Represented In S. F. Demonstration.

The Oakland and Berkeley branches of the Young Men's Christian Association, headed by Physical Director Cecil F. Martin of this city and Judge W. H. Waste, president of the Berkeley branch, turned out in large numbers in San Francisco today in the parade arranged by the Young Men's Christian Association. F. A. Jackson and W. L. Seawright led the Berkeley organization.

Colonel Gardner, post commander at the Presidio; Colonel John P. Wisner and his adjutant, Captain L. S. Chappelle, and the Sixteenth Infantry band met at the association's building and accompanied the long line of men as they passed through the park to the beach.

The grand display in boats showed the activities of the organization in religious, educational, social and athletic pursuits. The parade started at 10 o'clock and was headed by an escort of mounted police and the grand marshal of the day, Howard A. Strickler, physical director of the San Francisco Y. M. C. A.

In the procession was a detachment of soldiers, members of the army and navy branch of the association, and as an additional representative, Mr. A. McCall, supervising international secretary of the Army and Navy Young Men's Christian Association, Young J. McCoy, general secretary of the San Francisco association, and Rolla V. Watt, its president, headed the delegation from the other side of the bay.

Others prominent in the day's celebration were Dr. R. L. Rigdon, chairman of the committee on management of the naval training station, and G. S. Martin, secretary of the San Francisco branch of the naval association; President Alexander and General Secretary Burton B. Wilcox.

A harbor with a band concert accompaniment was held at the beach. Colonel Gardner, President Watt, Secretary McCoy and others delivered speeches, and a dip in the surf was a feature of the day's program. Moving pictures of the parade and the events at the beach were taken and forwarded to the national headquarters to be exhibited in eastern association buildings.

GOT MONEY BUT SHE  
RETURNS TO STAGE

CHICAGO, Sept. 2.—Acceptance of \$3,000 in settlements in the suits pending against her banker husband, Mrs. Albert Gailatin Wheeler, Jr., did not cause her to change her plans for returning to the stage.

Wheeler, 35, is a well-known figure in "The Whirl of Society." She played the part of a rich young society woman and appeared in her \$3000 gown of silver lace and jewels.

From \$15,000 a year Mrs. Wheeler has been trying to live on \$500 a month allowance. "But I cannot live on this sum," says Mrs. Wheeler. "I merely exist."

She was the prima donna with the Frank Daniels company when Wheeler married her fifteen years ago. One suit in which she says she has accepted a settlement of \$10,000 is an action for damages for breaking into her apartment at the Dakota and stripping the rooms of furniture.

STOPS RUNAWAY: IS  
DRAGGED BY HORSES

SAN FRANCISCO, Sept. 2.—Martin Van Orchest of 1279 Dolores street stopped a runaway team at Twentieth and Mission streets this morning and was dragged by the horses for some time. He was taken to St. Luke's hospital and a physician amputated one of his fingers as it caught him for numerous bruises and abrasions of the body.

## PIONEER AUTO CO. OPENS NEW HOME

Salesrooms Crowded With Admirers of Chalmers Cars and the Flanders.

The opening of the new salesroom of the Pioneer Automobile Company formally took place Saturday. During the entire day and up to a very late hour Saturday night the building was thronged with friends of the company and admirers of both the Chalmers automobiles and the Flanders electric.

While the day was set apart entirely to extend greetings to motorists of this city and the desire of Manager Penfield was to do away with all business cares, still there were several who insisted upon and did place their orders for new models.

The show rooms were prettily and tastefully decorated. Added to this a splendid display of the complete line of cars, dressed up in their Sunday best, and one gains an idea of the attractiveness of the opening presentation.

A real busy lady from the time the doors were opened at 8 a. m. until closing time on the opening night was Mrs. Webster, who has charge of the Pioneer electric department.

A specially engaged string orchestra furnished music of a highly entertaining nature throughout the evening and this feature added color to the occasion. The present quarters are recognized as being among the very best on either side of the bay. Considerable credit must be reflected upon the efforts of Manager Penfield in making the Oakland Pioneer store one for others to take example by.

## BOY FATALLY SHOT BY IRATE FARMER

Lad Attempting to Steal Grapes Is Victim of Shooting.

SAN JOSE, Sept. 2.—Shot by the irate owner of a vineyard near Sunnyvale yesterday afternoon Ray Glenn, a 12-year-old boy, is fatally injured. A bullet wound through the abdomen is giving the physicians considerable concern.

Glenn, with two other lads of the same age, all employees of the Libby, McNeill & Libby cannery, Sunnyvale, entered the vineyard of Peter Goshen, a farmer, and went to steal grapes.

The owner ran from the house with a rifle, and fired Glenn fell and the two other lads escaped.

Glenn was brought to San Jose by Dr. George P. Hall. Robert Miller and Charles Holstein were the injured lads' companions.

Goshen was arrested by Constable McElroy and taken before Justice Devereux, who released him on his own recognizance pending developments. Goshen says he fired only to frighten the boys.

## ROBBER ATTACKS A GIRL IN DARKNESS

Victim Fails to Identify Suspect, Who Is Released.

SAN FRANCISCO, Sept. 2.—Miss Ross Cunningham of 1157 Octavia street was assaulted by a robber a few yards from her home at 1 o'clock this morning. The woman was walking along Octavia street, near Eddy, when the thug sprang from behind a fence and seized her. She screamed, and Patrolmen Collins, McCarty and Moore responded. They arrested a man caught running away from the neighborhood, but Miss Cunningham could not identify him and he was released.

## AUTOMOBILE RACES HAVE FATAL ENDING

WOODLAND, Sept. 2.—A fatal accident wound up the automobile and motorcycle races here yesterday afternoon. Tedd Orr, driving a racing car a mile a minute, crashed through the fencing on a curve and was killed outright. Cleo Berry, the mechanic, was the seat with Orr, was thrown clear of the car 40 feet and it is thought he will recover.

Mrs. Orr and 3-year-old Thelma Orr, wife and daughter of the dead driver, witnessed the accident. It is thought Orr was blinded with dust as he endeavored to make the curve. The accident occurred in the last event of the day, a five-mile free match race, as Orr was starting on the last lap.

The dead man formerly lived in Willow. He and his wife were married in Reno, Nev., May 11, 1908. He was 35 years old.

## "BABY CRY" INSTRUMENT NOT MUSICAL, RULING

WASHINGTON, Sept. 2.—"A baby cry" is not music, according to a decision announced at the treasury department. In pronouncing this verdict, the government put the baby cry on the same plane as "the sound of a pistol shot, the tinkle of sleigh bells and the noise of tin whistles and duck calls." The question came up on a protest of Carl Fischer, a New York importer, that the New York custom house should not assess small wooden whistles, known as "baby cries," at a 45 per cent ad valorem duty as for musical instruments, but at 25 per cent as manufactured articles chiefly valuable as novelties.

The whistles are used in orchestras and moving picture shows.

## CLEAN YOUR LIVER AND 30 FEET OF BOWELS WITH 'SYRUP OF FIGS'

More Effective Than Calomel, Castor Oil or Salts; Gently  
Cleanses the Stomach, Liver and Bowels Without  
Nausea or Griping; Children Dearly Love It.

You know when your liver is bad, when your bowels are sluggish, when you feel a certain dullness and depression, perhaps the approach of a headache, your stomach gets sour and full of gas, tongue coated, breath foul, or you have indigestion. You say, "I am bilious or constipated and I must take something tonight."

Most people shrink from a physic—they think of castor oil, calomel, salts or cathartic pills.

It's different with Syrup of Figs. Its effect is as that of fruit; of eating coarse food; of exercise. Take a teaspoonful of delicious Syrup of Figs tonight and you won't realize you have taken anything until morning, when all the clogged up waste matter, sour bile and constipation poisons move on and out of your system, without

gripes, nausea or weakness. Nothing else cleanses and regulates your sour, disordered stomach, torpid liver and thirty feet of waste-clogged bowels like gentle, effective Syrup of Figs. Don't think you are drugging yourself. Being composed entirely of luscious figs, senna and aromatics, it cannot cause injury.

If your child is cross, sick and feverish, or its little stomach sour, tongue coated, give Syrup of Figs at once. It's really all that is needed to make children well and happy again. They dearly love its pleasant taste.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," and look on the label for the name—California Fig Syrup Company. That, and that only, is the genuine. Refuse any other fig syrup substitute with contempt.

## TRAGEDY SHADOWS PLEASURE OUTING

August Petchold Falls From  
Launch and Is Drowned  
In the Bay.

SAN FRANCISCO, Sept. 2.—One man was drowned and another who tried to save him nearly went down yesterday. The man who was lost is August Petchold, a member of the Morning Glory Club, which had chartered the Crowley launch No. 16 for the day.

Petchold was sitting on the rail of the power boat when he suddenly lost his balance and went over. The forty members of the party shrieked, and one of them, Harry Gilmore, threw off his coat and dived overboard.

A heavy sea was running and Petchold was swept away from the craft. Gilmore struggled to reach him, but Petchold had gone down for the third time.

Desperate efforts were made by the penknives on the launch to reach the unfortunate man. At one time the boat was brought close to him, and Joseph Steady tried to grasp him by the collar. Steady has a wooden leg and was unable to scramble about quick enough to save his comrade.

Gilmore was dragged into the boat half drowned and was subjected to heroic treatment. The launch cruised about the scene of the accident for nearly an hour, but finally gave up the quest for the body and returned.

## 'Boils, Rashes, Pimples, Etc.

When the blood becomes infected with any unhealthy humor the effect is shown by boils, pimples, and rashes or eruptions on the skin. Humors get into the blood usually because of an inactive condition of the eliminative members. Remove these humors and no skin trouble can exist, because its very source is then destroyed. Boils, rashes, pimples, etc. can never be cured through the application of external medicines, the most to be obtained from such measures is temporary relief. S.S.S. CURES all skin affections because it purifies the blood. It goes down into the circulation and cleanses it of every particle of unhealthy matter. Then the blood supplies nourishment to the cuticle instead of irritating it with a fiery humor. If you have any skin trouble you could not do better than purify your blood with S. S. S. It does not "patch up," it cures. Book on Skin Diseases and any medical advice free to all write and request same.

## WOODROW WILSON MAKES ADDRESS TO WORKINGMEN Presidential Candidate of Democratic Party Punches Holes in Third Party Gas Bag

BUFFALO, N. Y., Sept. 2.—Woodrow Wilson delivered an address to day before the United Trades and Labor Council of this city. Governor Wilson said in part:

"Intelligent workingmen will ask the men now seeking their votes what they may be expected to do for them. I do not mean for them separately, but what they may be expected to do for the country which will entitle them to the confidence of those who perform the daily labor which lies at the base of all our life.

"Most of the answers they get will turn upon the question of tariff, from which our politicians are never able to get away.

"On the one hand they will be told that if the Democratic party gets into power they may look to see industry languish and wages go down, and employment become harder and harder to find. They forget that Democrats constitute something like half the nation, that Democrats are engaged in occupations of every kind, depend upon all sorts of business, and livelihood, share in every interest and enterprise of the country. It may safely be taken for granted that Democrats are not going to destroy themselves economically.

**FORCES OF DISASTER.**

"These uncomfortable predictions come from both the old-line Republicans and the Republicans of the new departure who are seeking to build up a third party of their own. From Republicans of the old lines these forecasts of disaster were to be expected. They have long been their stock in trade, but they were hardly to have been expected from those who had cut themselves loose from the older connections and who were boldly working to make new things out of old.

And yet the predictions of the leaders of the new party are as alarming as the predictions of the veriest stand-patter. There is the stimulating breath of hope in every part of the platform of the new party except the one which touches the tariff and the trusts.

"In fact, there is this very singular feature about the platform of the new party: It has two sides and two tones. It speaks warm sympathy with practically every project of social betterment to which men and women of broad sympathies are now turning with generous purposes and on that side it is refreshing to read. But that is not the part of the platform that reads like a program. It is a proclamation of sympathy rather, an indication of the direction in which the leaders of the party would fain some time move. The program lies elsewhere, where the tariff is the keystone and the trusts. In that portion of the doctrine there is an air of business and a very definite indication of what is intended to be done and by what means.

**THE ROOSEVELT UTTERANCES.**

"It may be interpreted in the light of some interesting things Mr. Roosevelt has recently said. Roosevelt declares his devoted adherence to the principle of protection. He declares that he is not troubled by the fact that a very large amount of mail is taken out of the pocket of the general taxpayer and put into the pocket of particular classes of protected manufacturers, but that his concern is that so little of this money gets into the pockets of the men and women who have searched his program very thoroughly for an indication of what he expects to do in order to see to it that a larger proportion of this 'prize' money gets into the pay envelope and I have found only one suggestion.

"There is a plan in the program which speaks of establishing a minimum, or living wage, for women workers, and I show that we may assume that the principle is not in the long run meant to be confined in its application to women only. Perhaps we are justified in assuming that the third party looks forward to the general establishment by law of a minimum wage. It is very likely, I take it, for granted, that if a minimum wage was established by law the great majority of employers would take occasion to bring their wage scale as nearly as might be down to the level of that minimum and it would be very awkward for the working men to resist that process successfully, because it would be dangerous to strike against the authority of the federal government.

**WARDS AND PROTEGES.**

"Moreover, most of the employers, at any rate practically all of the most powerful of his employers, would be wards and proteges of that very government which is the master of us all.

"The government is to set up a commission, whose duty it will be not to check or defeat it, but merely to regulate it under rules which it is itself to frame and develop. So that the chief employers will have this tremendous authority behind them. When they do, they will have the license of the federal government to act, including the right to pay the

wages approved by the government.

"And it is worth the while of the workingmen of the country to recall what the attitude toward organized labor has been of these masters of consolidated industries, whom the federal government is to take under its patronage as well as under its control. They have always been the opponents of organized labor and have tried to undermine it in a great many ways. Some of the ways they have tried and have won the credit of philanthropy and good will. Some of them have set up systems of profit-sharing, of compensation for injuries and of bonuses and even pensions, but every one of these plans has misbound their workingmen more tightly to themselves. Their rights under these various arrangements are not legal rights. They are merely privileges which they enjoy so long as they remain in the employment and observe the rules of the great industries which employ them. If they refuse to be weaned away from their independence they cannot continue to enjoy the benefits extended to them.

**LEGALIZES MONOPOLIES.**

"When you have thought the whole thing out, therefore, you will find that the program of the new party legalizes monopolies and systematically subordinates workingmen to them and with regard to employment and wages by what means, except of open revolt, could we ever break the crust of our life again and become free men, breathing an air of our own, choosing the lives that we wrought out for ourselves? Perhaps this new and all-conquering combination between money and government would be benevolent to us, perhaps it would carry out the noble program of social betterment which so many credulously expect of it, but who can assure us of that? Who will give bond that it will be general and gracious and pitiful and righteous? What man or set of men can make us secure under it by their empty promise and assurance that it will take care of us and be good?

"It is like coming out of a close and stifling air into the open, where we can breathe fully again and see the free spaces of the heavens above us, to turn away from such a program, to the ideas of Congress by Mr. Gary and Mr. Perkins to the proposals with which the great Democratic thinkers of the country offset and oppose such a platform. Democratic leaders turn away from the plan to legalize monopoly and give a federal commission leave to say how much of it there should be, because they know exactly what that would mean. What they propose is the restoration of freedom of competition and the prosecution of what has created monopoly. When you have regulated monopoly you have in effect restored it."

## BAREFOOT DANCERS ARE AT PANTAGES

Texas Tommy Sans Footwear  
Is Novel Act on Holiday  
Bill.

Two girls with draped faces and undraped limbs lead off the holiday week bill at the Pantages, doing the Texas Tommy barefooted with their similarly lacking in footwear. The novelty dancing includes the "Panama-Pacific Exposition 1915 Waltz," "Exposition Rag."

The new playhouse on Twelfth street was packed at all performances yesterday and will entertain as many more pleasure seekers with what is perhaps the best bill since the opening of the theater.

The Moral Opera Company is being welcomed back to Oakland, the organization of four talented singers being the feature of the week's show. The stage setting is a Mardi Gras scene in Paris.

Eldon impersonating Madeline Hermann the Great, Thurston and Keller, creates a sensation with his Princess Karma illusion, causing a young woman in hypnotic state to remain suspended in air "without visible means of support."

The feature magic acts of the trio of wonder-workers are embraced in Eldon's impersonations.

Moving pictures of Hawaiian scenes are the best of the kind ever shown here. No one left the theater yesterday while the close-up views of the volcano of Kilauea were on the screen.

John R. Rogers, basso, formerly of Cohan and Harris' minstrels, renders popular vocal selections.

The Four Bard Brothers furnish a star act. Some of their gymnastic feats of strength and daring are entirely new on an Oakland stage.

Billy Broad's blackface monologue and singing act is the comedy feature of the bill.

The Imperial dancing four, composed of two young men and two girls, execute tetrachorean steps in variety, making several changes of costume.

#### Pension for Mothers

**LOS ANGELES**, Sept. 2.—Action is to be taken by Los Angeles clubwomen regarding the protection of mothers and the pensioning of them by the state. Mrs. Isabel Fleischer, special agent of the National Child Labor committee inspired by the work of Miss Lucy White of San Francisco where a league for the protection of mothers has been established has written to Miss White for data and has arranged with the Anella Gates chairwoman of the Public Morning Club to bring up the matter at the board meeting of the club on Tuesday.

"Only this," said Mrs. Fleischer yesterday "I came across a case that is typical of the mother who has no little child to sell articles in the market because the father is temporarily unemployed. She is not the kind who would apply to the charitable organizations, but the offer of \$15 which she said would tide the family over October was gladly accepted and the child taken from their unwelcome occupation. The state should provide this mother with funds."

The object of the league is to obtain legislation providing for the care of mothers before and after the birth of children, to order the mothers of all of the factories and also for the care of widowed mothers with dependent children.

### CARE OF THE TEETH

By LILLIAN RUSSELL

(Copyright 1912 by Lillian Russell)

**W**HEN we realize what an important part our teeth play in the game of good health, we will show them the consideration they deserve. Children should be taught to brush their teeth from the age when they are able to hold a baby tooth brush. An annual trip to a good dentist should be as faithfully kept as the Fourth of July, or that more pleasurable holiday—Christmas. When this rule is observed there is no occasion for any man or woman to suffer from bad teeth. All dentists will tell you that salt—common table salt—is as good a tooth powder and wash as any one needs. It is far better than many of the fashionable dentifrices which are on the market. One bad habit which most people overlook is keeping the mouth open while awake or sleeping. The lips should be kept closed except when talking or eating. I do not mean tightly closed, so as to form a hard line or pucker, but just closed in an agreeable smile. The habit of keeping the mouth open either waking or sleeping is prejudicial to the health of the teeth. Particles of matter accumulate around the neck of the teeth and in the cracks and interstices from such exposure. The membranes covering the gums and lining the lips and mouth, at the same time lose their natural delicacy and healthy character, growing unpleasant, parched and stiff so that speech becomes difficult and imperfect till the parts become again lubricated.

Have you never seen persons who do not seem to swallow, but who allow the saliva to accumulate while they talk? Such persons do not breathe through the nose. From their manner of speaking their nostrils close at the back and cause a disagreeable expression in the face and an unpleasant tone of voice. Old-fashioned people rub their teeth and gums with the pulp of an orange. They say the orange cleanses the teeth and stimulates the gums. The teeth should be cleansed after each meal, so that no particles of food may remain to decay there. We depend upon our teeth to masticate our food, so we should allow them to do their duty, thus avoiding indigestion, dyspepsia, heartburn and other annoying diseases. There is no reason why our teeth should not live as long as we do, and keep perfectly healthy.

There are many foods which have a healthy effect upon the teeth—brown bread, beans, nuts and even sugar. Notice the fine white teeth of the negroes who live and work on plantations and daily masticate sugar. They prove the lie to the assertion that sugar ruins the teeth. Rock candy is good for the teeth and gums, but molasses candy is very bad for both. Nothing one eats will really hurt the teeth if the teeth are cleansed immediately after eating. Often an offensive breath comes from decayed food around the teeth. One should be more than careful of how they neglect them. People are more apt to treat their poor teeth as enemies rather than friends. Teeth are very grateful for any little attention, and they resent neglect. Remember, have faith in the integrity of your teeth and respect them.

**RUTH E**—If you will send me a stamped addressed envelope I shall be glad to send you formula for a shampoo for oily hair.

**P. A. T.**—I cannot recommend proprietary articles to my readers. If you will send me a stamped, addressed envelope I shall be glad to send you a formula for the face. This bleach is absolutely harmless. If the growth is heavy I would advise you to have it taken off with the electric needle. This is the best and most effective way of removing superfluous hair.

**MRS. G. S. Y.**—Here is the recipe for an excellent lotion for excessive perspiration. Half ounce tincture of benzoin ten grains nic acid two ounces elderflower water and six ounces rosewater. If you will send me a stamped, addressed envelope I will send you a harmless and inexpensive bust developer.

**CONSTANT READER**—I cannot improve your looks by lightening. On the contrary, you call attention to

that portion of your figure, and the flesh you wish to get rid of is pushed upward and downward. The latter is the most deforming. For it makes your hips look much too large. It also will in time, ruin your health, as the vital organs are pressed upon and prevented from doing their normal work. So I say to you and all who are tempted "to pull their corset strings tight" do not do it.

The straight front corsets, properly fitted, will improve your figure, and will also give room for the organs which reside over your internal economy. The waist can be greatly improved by the exercises I have so often described in these columns, the stretching exercises and the bending exercises. If they are practiced daily and persistently you will find not only the lines of your figure greatly improved but your health also. Regulate your diet and eat enough to satisfy your hunger, but do not overeat.

If you will send to a stamped addressed envelope I shall be glad to send you a diet plan for reducing flesh and also the rolling exercises for reducing the hips.

**CHARLOTTE**—Superfluous hair is a most annoying beauty blemish. I advise you to give the growth of hair on your face immediate attention so that it will not become any heavier. There is nothing as effective for superfluous hair as the electric needle, but if you feel that you cannot use it, the electric needle write me aprin inclosing a self-addressed stamped envelope with your letter, and I shall gladly send you an inexpensive remedy which will gradually kill the roots of the hair. The treatment may have to be repeated several times. You will have to be persistent in order to gain good results. I am delighted to hear the little beauty secrets have been of so much help to you.

**ETHEL B.**—Massage with a good skin food crosswise of the lines with the tips of the fingers is excellent for removing wrinkles. Skin food is also better than coconut oil or olive oil for the skin as they are too heavy and are inclined to make hair grow on the face. I will be glad to send you the formula for a skin food which will fill out the cheeks under your eyes, and is to be used on the neck and hands also. If you will write to me again asking for it, enclosing a stamped self-addressed envelope.

**MRS. G. S.**—I shall be happy to send you the formula for skin food and cold cream if you will send me a stamped addressed envelope.

# TWENTY PEOPLE DROWN IN EASTERN FLOODS

## TWO STATES IN PATH OF STORM

Railroads Are Crippled and Many Factories Are Under Water

Homes Swept Away by Floods and Survivors Are Without Shelter

PITTSBURG, Sept. 2.—Twenty persons are known to have been drowned and many others are missing following a series of storms that swept over Western Pennsylvania and the panhandle of West Virginia early today.

The Baltimore and Ohio Railroad and the Panhandle Railroad were badly crippled, and it is stated that days will pass before traffic can be resumed. Many manufacturing plants are under water and the property damage will be heavy.

Reports from collieries in the panhandle of West Virginia are that nine persons have been drowned there and many more are missing, but the exact loss of life cannot yet be ascertained. Cherry Valley, a mining town on the creek, was flooded within half an hour after the rain began to fall. Foundations of houses were undermined and they toppled over into the flooded streets.

George Gillespie, his wife and four children were drowned in the house and the bodies of the children were found on a mattress floating in four or five feet of water.

Canonsburg, Pa., also suffered from the storm, having recovered from a like experience last week. Charlier creek overflowed its banks and swept through the town, flooding the railroad tracks and the streets. A number of houses were filled with water, but the residents had received ample warning and fled to places of safety. One man who went back to recover some valuable papers was crushed in the collapse of his house and a boy fell into the flood when a porch on which he had taken refuge went down. A number of children in the community are among the missing and several men, women and children who had taken refuge on the roof of a house on the stream on the edge of Canonsburg slipped on the shingles and disappeared in the flood.

**CHILDREN PERISH.**  
At Avella, Washington county, Henry Crow's house was undermined by an ordinary little stream. Mrs. Crow was badly injured and Crow carried her out, but when he returned for the three children they were swept away.

After spending its force south and west of Pittsburgh the storm swung north to Butler county, where great damage was done, but so far as known no lives were lost.

The known dead:

Cook White, farmer, Burgettstown, Pa.

George Gillespie, his wife and four children, Cherry Valley, Pa.

Mrs. Thorley and daughter, Colliers, W. Va.

Unidentified family of man, woman and three children, Colliers, W. Va.

Unidentified farmer.

Ten-year-old boy, unidentified.

Three children of John Crow of Avella, Pa.

The storm came after a day of unusual heat and burst with little warning.

## FIGURES THAT TELL THE STORY OF GOOD WORK IN OFFICE

### THE SAVING BY SUPERVISORS MULLINS, FOSS AND MURPHY

Left to right (top) Supervisors F. W. Foss and D. J. Murphy. Below Supervisor J. T. Mullins.

### Three County Officials Who Guarded the Funds

Supervisors Mullins, Foss and Murphy have been acting together upon the board of supervisors for slightly more than a year, and in that time they have carefully watched the outgo from the Alameda county treasury, John F. Mullins as chairman of the board, Fred W. Foss as chairman of the finance committee and D. J. Murphy assisting them both. In that time they have given the most careful attention to the finances of the county.

They have not made great cuts in any one place, but they have carefully and systematically guarded the outgo in every department. It may only have been a cut of a few cents in one place and a few dollars in another, but at the end of the year these savings have amounted to a great big sum.

It would be hard to point to the exact place where these savings have been made, but the total amount of money spent by the county under the management of these three stands out clearly. In round figures they have run the county of Alameda upon \$200,000 less than the year before, and with a total expenditure of less than for the previous year they have secured greater efficiency of service. These are the figures:

County general fund, total receipts from all sources:

1911-1912

\$1,190,040.11

\$916,888.18

Gross saving over year previous, \$273,151.93

The county has run on more than

### MADE SPRING VALLEY PAY

Mullins, as chairman of the Board of Supervisors, has given practically all of his time to the work. He and Foss succeeded in placing an assessment valuation of \$3,000,000 on the holdings of the Spring Valley Water Company in Alameda county. It has formerly been assessed at \$500,000. Foss is chairman of the finance committee.—San Francisco Examiner.

a quarter of a million dollars less money in the year that ended June 30 last and there was an actual saving in the expenses of very nearly a quarter of a million dollars, and yet

### RECORD OF FAITHFUL SERVICE

(From the Berkeley Gazette August 29, 1912.)  
THE candidacy of John F. Mullins is meeting with much success in Berkeley, where his record as a faithful public servant is known and approved. Many prominent business men are working in his interest, and one of them said today:

"John F. Mullins deserves to be elected to the office of county supervisor. His services to the public entitle him to the support of all good citizens, and most particularly to the support of Berkeleyans who vote in the fifth supervisor district, part of which lies in this city."

"In the highest sense of the word Supervisor Mullins has at all times maintained the best interests of the county. He has guarded the public welfare with courage and fidelity. Men with red blood in their veins and women who believe in upholding the right, admire a brave man. That's the kind of a man we have in Supervisor Mullins. He is not afraid to express an opinion, and when convinced of the proper course to be pursued, is not easily swayed from his resolution. While judicially firm in his opinions, Supervisor Mullins has a due regard for the dignity of the community and is liberal in advocating measures that will benefit the entire county."

"It is important indeed that an official should be retained when tried and found faithful to the trust reposed in him."

"Such a man is John F. Mullins. There can be no doubt that he will be triumphantly endorsed by the people whom he has served. He deserves the nomination, and undoubtedly will get it. That his re-election will follow is a certainty."

## FIREMEN NEAR QUELL REVOLT

### DEATH IN FLAMES

Three Members of S. F. Department Overcome While Fighting Blaze.

Damage Is Done to Japanese Art Store, Following Spontaneous Combustion.

SAN FRANCISCO, Sept. 2.—A stubborn fire which defied efforts of the department for two hours and overcame Second Assistant Chief James Leyden and two other firemen, broke out at 8.30 this morning in the basement of the Kisen Company, 157-159 Geary street. Spontaneous combustion among art goods in large packing cases was responsible for the blaze.

The fire was first discovered when an employee opened the store and noticed the dense smoke coming from the cellar. An alarm was quickly turned in and a second alarm was sounded as soon as the first company reached the scene.

A large crowd assembled. The firemen found it impossible to reach the seat of the flames. It was necessary for the members of the truck company to carry a whole stock of Japanese furniture from the rear of the store in order that they might work in by smashing through a hole in the blaze in the basement below. The floor was ripped up and the cellar deluged with water.

Where the smoke was thickest near the place where the fire originated, Chief Leyden was rendered unconscious and fell to the floor. He was rescued by half a dozen firemen, who carried him into the air. When an ambulance arrived he revived and refused to go to the hospital, directing operations from a chair placed on the stoop.

Battalion Chief Michael Boden and Fireman Britt were also overcome by the smoke. Boden was taken to Central Emergency hospital for resuscitation and Britt was carried home.

The Kisen company's stock consisted of Japanese art and dry goods and the loss from fire, water and smoke will probably approximate \$5000.

Owing to the cut up condition of Geary street by the coast fire, the construction of the municipal railroad engines found it almost impossible to get to two of the fire hydrants.

### OAKLAND EDEN? NOT FAR WRONG

Carpenter, Like Adam, Has Fall, But Not in the Same Way.

The hallucination that time had turned backwards to a period prior to the moment at which Eve presented Adam with a bite of apple became so strong in the mind of Matt Loech, a carpenter, that he imagined Oakland was Eden. Divesting himself of his clothes, Loech took a pre-adamite leap from the window of his room in a lodging house, 1374 Seventh street, striking on all fours like his archetypal ancestor, and narrowly avoiding a baby that was being wheeled past in a go-cart.

Loech's arms and legs were badly bruised and his muscles in places wrenched and torn. His experience in Edenite simplicity had not proved a great success, but he was persistent in his wishes to maintain his stand before the world's history.

The police attempted to lead him away, after throwing a blanket over him, but were forced to engage the man in a struggle before he could be taken to the hospital.

Loech will be examined for his sanity. He has a wife and family.

### ROOSEVELT IS ON HIS TROUBLED WAY

OYSTER BAY, Sept. 2.—Colonel Roosevelt was up today before daybreak and by 8 o'clock was in his automobile for New York, where he was to catch an 8 o'clock train, with Hartford, Ct., as his first stop. His program called for speeches at Hartford and Springfield. Leaving Springfield late this afternoon the colonel's real journey began. He turns his back on the East for a time, heading straight for St. Louis, where he will appear at the Missouri State Progressive convention. From St. Louis he will move north to St. Paul and thence up and down the Pacific Coast states. His plans will bring him back to Oyster Bay about the middle of October.

LOS ANGELES, Sept. 2.—Nat Goodwin, the actor who was seriously injured several weeks ago, while trying to land a boat on the rocky coast near Huemene, will be able to resume tonight activities in about a month, according to his physician, Dr. F. J. Forbert. Goodwin is still confined to his bed, but he will be about within two weeks, said Dr. Forbert.

With the aid of gymnasium weights placed at the head of his bed, Goodwin goes through a series of daily exercises which he declares will enable him to regain his strength soon after he gets on his feet, again.

### VOTE FOR KNOWLAND

EDITOR TRIBUNE: The development of the cities of Alameda county is the chief concern of the county. That development has been carefully nourished in Congress by Mr. Knowland until our growth makes this county one Congressional District, with a member of the House who has no other charge than our interests and progress. In Mr. Knowland we have an experienced representative, long past his novitiate and skilled and schooled in all that makes for power and influence. Let us keep him where he is, and not commit the folly of displacing him for a raw man who, just as we need influence and experience most, will have neither. It is not possible that our people will risk their own fortunes to gratify the ambition of one man who can make no return for what would be sacrificed in electing him.

## VICE CRUSADE INCLUDES LIQUOR

### IN STATE PRISON

Michigan Warden Denies That He Flogged Trouble-Makers.

Prisoners Locked In Cells Keep up Racket, Yelling and Kicking.

JACKSON, Mich., Sept. 2.—State prison officials were kept busy denying sensational rumors today and it was announced that there were no new developments in the prison insurrection. The convicts locked in their cells were still keeping up their racket by yelling and kicking and pounding on the cell doors but that has been the most serious trouble today, according to Warden Simpson.

The warden denied that he had flogged many of the trouble makers, but it was admitted that several prisoners were suffering solitary confinement, while others have been strapped by their wrists to cell doors. The prison was in darkness last night. The cause, as officially given today, was an accident to the machinery in the lighting plant. Warden Simpson denied a report that convicts had tampered with the boilers as well as the machinery.

PORTLAND, Ore., Sept. 2.—Governor Oswald West has broadened the scope of his personally conducted crusade against vice in this city to include an attack on the breweries and wholesale liquor dealers. Notice that every liquor shipment into "dry" portions of the State would be followed up was served yesterday on the railroad commissioners in the shape of a warning from the governor that the companies accepted such shipments at their own risk.

The governor asked the companies to post a notice in a conspicuous place on the arrival of liquor shipments at their destination, describing the contents of the package and giving the name of the consignee.

This move follows intimations that "blind pigs" were being freely supplied by wholesalers and the governor asks that the list of consignees be made available to state officers and liquor shipments be held one day by the railroad, among them being a delegation from the local branch of the W. C. T. U., of which Mrs. Anderson was a member.

The floral offerings were numerous. The dead woman had been prominent in church work here for the past 10 years. Her husband was pastor of the First Presbyterian church.

### JOHN R. BURTON IS S. F. VISITOR

Former Assistant Secretary of Democratic Committee on Coast.

John R. Burton of New York, until recently assistant secretary of the Democratic national committee, and is also a member of the Bohemian Club. He spends considerable time each year in San Francisco, and on his recent visit did everything to enlist the support of the Democrats for the nomination of Governor Wilson. He says he is confident of the success of the Democratic nominee.

Regarding the Panama-Pacific commission for New York, Burton stated that he was discussing with Norman E. Mark, his former associate on the Democratic national committee, about the advisability of the committee appointed by Governor Dix visiting San Francisco, and he stated that the committee will be in this city about the middle of November, or just as soon after election as is possible for the members to get away.

The New Jersey Commission appointed by Governor Wilson, of which Judge Robert H. Hudspeth—who is also a Democratic national committeeman from New Jersey—is chairman, will visit San Francisco about the same time. Burton is advised that the New York commission has opened offices at 9 East Forty-second street and that the office is in charge of Daniel E. Ryan, the secretary of the commission, and the plans are already under way for the erection of the New York building. He says that the New York commission intends to erect a building that will far surpass anything that has ever been built for a previous exposition.

Burton will remain on a few days for the southern part of the state, but will return to the city and make his headquarters at the Palace Hotel.

## CRAZED WOMAN IS HELD BY POLICE

Resident of Upper Fruitvale Raves That Home Is Destroyed.

MELROSE, Sept. 2.—Believed to have suddenly become insane, Mrs. M. P. Brown, 1302 Hopkins street, Upper Fruitvale, was arrested this morning by Officer Rice of the Melrose police station who found her raving at Fruitvale avenue and Hopkins street. The woman was attracting much attention from passers-by, crying that Indians had destroyed her home and that she intended to commit suicide. Mrs. Brown was taken to the Central station in Oakland and charged with insanity. On her way to the Melrose station in a street car she became violent and caused a small panic among the women passengers. She gave her age as 61 years and said she has a son, Charles S. Brown, living with her at her home.

## OHIO TO VOTE ON WOMAN SUFFRAGE

Issue to Be Submitted at Polls Tomorrow; Interest in Contest.

COLUMBUS, O. Sept. 2.—Whether women's suffrage is to take its place in the organic law of this State will be settled at the election tomorrow when 42 amendments to the constitution of the State will be adopted or rejected. Almost equal interest attaches to the amendments incorporating the initiative and referendum into the State law, the question of licensing the liquor traffic, the abolition of capital punishment, changes in the judiciary and municipal home rule for cities. Voters will have to mark their ballots separately for each of the amendments. A comparatively light vote is expected. Should the suffrage amendment be defeated and the initiative and referendum adopted it is said the suffrage supporters plan to utilize the initiative as a means of presenting the suffrage problem to the voters with little delay.

They were rowing in four-oared barges, but their companion Edward Knottner of 762 Sixth avenue was in a skiff, which capsized. He held fast to the boat and after considerable anxiety and work he was safely landed ashore.

The crowd was not satisfied until a second encore was given the singer giving Mr. Heart Has Learned to Love You. Over 4000 visitors attended the concert which was led by Paul Steinbock, veteran director and choragus of the State Troupe. ## BANK OF GERMANY HAS BEEN ABSORBED

Business Is Transferred to the Central National and the Central Savings.

The Bank of Germany, which was organized five years ago with a capitalization of \$200,000, has been absorbed into the Central National Bank and the Central Savings Bank, the transfer of interests having taken place Saturday. Today and tomorrow will be utilized by the officials in getting their books and deposits in shape to pay off depositors on Wednesday when the institution will be open for business after a two week holiday.

Albert K. Kiser, president of the Bank of Germany, stated today that the reason for the bank's going out of business is merely that it did not pay sufficient interest to attract its customers. It was decided to merge it with the greater banking institution.

"All deposits will be paid in full," said President Kiser. "The bank has been found by State Superintendent of Banks Williams to be a sound institution so far as depositors and stockholders are affected but it was not a paying business financially to the stockholders. For that reason it was decided to shut down further transactions."

"Everything has been conducted open and above board and when depositors appear at the bank Wednesday they will be given checks on the Central National Bank of all their accounts with interest. Then as fast as notes and other outstanding resources fall due they will be collected and the stockholders will be paid."

President Kiser, who has been at the head of the bank for the last few months, filling the office left vacant by the resignation of Theodore Gier, is one of the heaviest stockholders.

The Bank of Germany was opened for business on September 28, 1908. The organizers were as follows:

Twentieth Anniversary of the Young Ladies' Institution Observed at Ceremony.

Members of the institute, including representatives of branches in all other cities of the State, and many members of the Young Men's Institute, filled the main body of the church. The sermon was delivered by Rev. William P. Sullivan, who gave an account of the history of the institute and its work in the past and expressed his hopes for future success. Special music was rendered during the service. The decorations for the occasion consisted of palms and white carnations. Members of the Young Men's Institute acted as ushers. General arrangements for the commemoration were in charge of Miss Helen Conmy.

After the service the charter members gathered at the Hotel Bellevue, where the founder of the order, being present, California Institute No. 1 held a banquet in the Hotel Bellevue. Every charter member being required to relate an incident of the early days of the order.

## Oaks Capture Double-Header, Which Makes Record 6 Out of 7 From Reidyites

### OAKS SHOW CLASS AND SEALS LOSE BOTH GAMES

Malarkey's Pitching Wins in Before-Lunch Session, While Heavy Stickwork Succeeds in Afternoon

Oakland broke through the Seals twice yesterday and when this morning broke the series stood six for the locals and one—just one—for the fellows that Bill Reidy is trying to make a ball team of. The morning game was a tight old battle, the Oaks romping by a score of 1 to 0. This morning game was filled with many important discoveries, too. Our friends from over the bay discovered that there are balks in the Coast League, and they discovered that Al Baum's umpires sometimes make mistakes and that the Oaks sometimes get the benefit of those mistakes, just as they get the worst of them.

It was the second appearance of bushier Arlett before a Coast League audience and less risk to contend that it behooves the managers of the aforesaid Coast League to go forth and grab a few more California bushers instead of bringing a lot of broken down, wobbly-kneed veterans from over the hills and far away.

For us, Billy Malarkey worked and once again he showed those guys that have quibbled him a fine-time pitcher. Yesterday was the second time he faced the Blue gang and it was the second time he shut them out and the second time this week that he allowed them but three hits.

HOW THE OAKS WON IN A. M. Leard was out when that ever-dangerous Patterson poked a single to right in the eighth inning. He promptly started the pitcher of second and by a hook slide eluded Kid Mohler and was right on top of the play and quite rightly ruled the runner safe, but he missed seeing Patterson slide past the bag at least two feet. Mohler was on his job and tagged out Patterson after he had passed the bag. The play was in plain sight of every one.

SWATS BEAT WILLIE MCCORRY. Wee Willie McCorry was here yesterday like he was on the Sunday before. Oakland took kindly to everything he had and through the nine innings he ball playing made his shots and slants look like those that the worst of bushers would heave to the rubber.

Elmer Zacher hit Coy, Patterson and the rest of the Oaks just took a delight in hammering him and how they hammer him. Zacher got a home run into the leftfield bleachers while Bert Coy got two over the rightfield fence, while Pat, slammed it up against the fence on numerous occasions. Oakland got in the third inning as a starter. With two out, Zacher hit to leftfield.

That lead lasted until the last of the first when the locals ran their usual rally. Roy Corhan shot to right and to center. Geddon one back of hitting at third and McArdle sacrificed. Berry grounded to Leard, who fumbled and hesitated so long before turning the ball back to the plate that Corhan scored. Bill McCorry's two sacker up against the fence and Zacher walked. Wuffli hit to right to send Berry home.

In the sixth Zimmerman laid the ball hitting short and went to third on Corhan's elude to right. Geddon lifted a fly to center that scored Zimmerman, but Zacher relayed the ball to the plate and Zimmerman was out. Zimmerman, Mitze, tossed to hitting to corner Corhan.

Corhan seventh was the inning in which the score was tied. Mitze walked. Christian hit to McCorry, who threw wild to second and the pair of runners were and Leard disappeared in the third. The ball to left to score two of the runners.

BIG RALLY IN EIGHTH. Hitting hit through the pitcher to center, but Cook fouled him at second. Zimmerman hit through the pitcher to right and Cook on third scored by Mitze's safe one beyond third into leftfield. Christian walked, filling the bases, and after Leard had popped to Berry, Clair Patterson with his double added two more runs. Zacher swung hard to left and as the ball disappeared in the bleacher section there were two more runs. Coy isolated the leather over the rightfield fence for a final run.

The winning run was scored in the ninth on Ebb's single, out by Mitchell and Ebban and a hit by Grant. The second game was a 2-2 tie. The Reds leading from the start when Broderick's single and doubles by Marzans and Ebban, counted with a long single to right, scored three runs. The Pirates batted very well but never won more than a bases.

CHICAGO, Sept. 2.	The Cubs dropped back another half notch in their fight to catch the Giants. Bob Harmon had the Chicago batters powerless when his was needed. Leftfield was hit hard, but Recruit Madison, who succeeded him, showed real big league form. A touchdown pitched last two innings and was as good as Harmon. The third inning of Harmon and Kenechey featured.

### BLAVERS BACK DOWN AND HAPPY WINS A DOUBLE-HEADER

Eighth Inning Rally Wins First Game While Swats Bring Home the Second.

PORTLAND, Ore., Sept. 2.—Vernon lost the leadership of the Pacific Coast League for a few hours yesterday. Los Angeles jumping to the front by virtue of a morning conquest over the lowly Senators, but Hogan's men were not to be denied, and resumed their position at the top by taking both games of a double-header from the Blavers in the afternoon. Scores, 4-3 and 5-0.

Vernon was out to two to one in the first game, but the five hits cleaned off of Harkness, combined with two errors, proved sufficient to overcome the eighth-inning blunder rally.

The second game was yielded to the leaders, with scarce an effort on the part of the second divisioners. Southpaw Raleigh held the Blavers to four hits, while thirdout, Harkness, smashes, coupled with four errors, gave Vernon an average of one score for every inning, the edge on the series, three games to two, and saved the percentage column standing.

Over 3000 fans howled themselves hoarse during the two hours and ten minutes of the first game. The affair was replete with sensational plays with the eighth-inning batting rally, when Portland scored three runs, the culmination of the excitement.

That swatfest would have been sufficient to win the game and plant Vernon in second place, but for costly errors by Blavers and Kibbe.

In the sixth Bancroft muffed up Roy Brasher's grounder, a sacrifice and Litschi's two-sacker springing the second out. In the eighth following a walk and a sacrifice, Kibbe booted Litschi's grounder, and with McDonald out of the game, Agnew's single left scored two more runs.

## CROWDS GREET COL. ROOSEVELT

BRIDGEPORT, Conn., Sept. 2.—Cheering crowds greeted Colonel Roosevelt when he came into Connecticut at the opening of his campaign tour which is to take him from the Atlantic to the Pacific. On his way to Hartford, where he was scheduled to make his first speech, Colonel Roosevelt made two addresses at Stamford and Bridgeport.

At Stamford, Colonel Roosevelt said: "At any Progressive candidate elected and taking office, I will live up to any promise he makes. I will take the stump against him. Our candidates will live up to their promises."

## OLD BARKENTINE CHARTERED

Famous "Retriever" Condemned to Carry City's Garbage as Last Duty.

To replace the garbage schooner Lilliborne, which captured several days ago off this port, the famous old barkentine Retriever has been purchased by the C. A. Hooper Co., contractors, for the removal of this city's garbage. It was hoped at first that the Lilliborne could be raised but the great depth at the point where it sank under the effort to impound it. The once famous wind-jammer has been removed from her position in the mud to the Moore & Scott shipyard, and is now on that concern's ways being remodeled. When the craft is ready for commission she will represent an expenditure of nearly \$20,000.

The Hooper people have had a string of ill-luck since they were awarded the contract for the removal of Oakland's refuse. Their first plan of hauling the garbage up the river by three barges aroused so great a protest from residents from that section of the river that the plan was abandoned. After several weeks of hauling the refuse to sea by small barges, it was found that this method was impractical and it was decided to fit out a schooner to take the refuse to sea. For this purpose the Lilliborne was put into commission. The vessel was on her first run when she captured by a heavy sea while causing the date.

MANY PLEASURE SEEKERS.

Although a slight haze hung over the waterfront in the earlier hours, the "Sol" managed to be on the job later in the day and the hundreds of water enthusiasts who went out on the various pleasure craft from this side were well rewarded for their trouble. Nearly five hundred local residents left this side for cruises about the bay. The recently organized Chautauque Club, composed of local people, chartered the tugs Dixie and Panama of the Oakland Launch and Tugboat Co., and with 100 people aboard left for a cruise about the bay. In addition to the crews on the Dixie and Panama, the tug Arrow took out several hundred people, while scores of private craft left loaded down with pleasure seekers.

With a number of scratches on the fore part of her hull as the result of a collision with the steam schooner Bandon while at sea yesterday, the little steam schooner Ethel, Captain Jensen, arrived here with a lumber cargo. The Ethel was running along under her regular speed when she crashed into the starboard side of the Bandon, which was also carrying a lumber cargo. No great damage was done. The accident occurred off North Point. The Ethel is discharging a lumber cargo at Long Wharf. The Bandon is discharging at Long Wharf.

MANY ARRIVALS.

The steam schooner Bee, Captain Wehman, arrived here yesterday in ballast from Port San Luis. She steamed in and took a berth at the United Engineering Works. She will receive a general overhauling.

The steam schooner Helene, Captain Anderson, sailed yesterday from the inner harbor for Willapa Harbor to load lumber.

The steam schooner San Jacinto, Captain Carlson, from Gray's harbor, arrived here yesterday. She is at E. K. Wood Lumber Company's wharf discharging a lumber cargo.

The Pacific Coast Steamship Company's steamer City of Topeka arrived here today direct from sea. She tied up at Long Wharf where she is discharging a lumber cargo. She came from Bureka.

NEW YORK, Sept. 2.—Carlton Garretson, editor of the Judge, died here, today, at the home of his daughter, Mrs. G. J. Finch, as the result of injuries received when he was thrown from his horse, on May 10. Although he had been paralyzed from his neck down since the accident, he had dictated from his bed frequently during his illness material for his publication. Prior to his connection with Judge, Mr. Garretson was connected with the editorial staff of Leslie's Weekly and the New York Evening Globe, and had published small papers on the Pacific Coast.

LABOR'S CAUSE SUBJECT OF ELOQUENT SERMONS.

Labor's cause was expounded from the local pulpits yesterday in the sermons preached by various clergymen. Members of the unions of all crafts attended the services in the parishes en masse. The houses of worship were well filled. Special musical programs were given by augmented choirs and talented soloists sang sacred numbers.

Rev. A. W. Palmer, pastor of the Plymouth Congregational church, chose for his theme a book by Rev. Father J. A. Ryan of St. Paul's church, entitled "A Living Wage."

"The Position of the Methodist Church on the Labor Question" was discussed by Rev. George W. White, pastor of the First Methodist Episcopal church. At the evening's devotion he spoke upon "Jesus Christ as a Laboring Man."

At the Tenth Avenue Baptist church, Rev. J. H. Smith, pastor, spoke upon "The Church and the Workingman."

Last evening Rev. Herbert A. Jump addressed a large congregation at the First Congregational church upon his deductions from "The Cause of Organized Labor."

At the Pilgrim Congregational church the topic was "Religion and Labor."

At the First Unitarian church an anniversary service was conducted yesterday. Just before the commemorative sermon on "The Church that Took Not Days Away," the pastor, Rev. William Day Simonds, delivered an introductory address on "The Workers' Hymn," by Ella Wheeler Wilcox.

## FIRE THREATENS CLAREMONT HOMES

Firemen Save Residences Near Path of Grass and Fence Blaze.

BERKELEY, Sept. 2.—Fire sweeping over several vacant lots of the Claremont district southwest of the Claremont hotel for a time today threatened a number of residences, including that of Charles E. Hale at 51 Oakdale avenue. Firemen surrounding the W. J. Hotchkiss place on Claremont avenue were on the blaze under control.

## CHINA WANTS TO HOLD ON TO TIBET

Protest Filed Against Great Britain's Demand Regarding Disposal of Province.

LONDON, Sept. 2.—The Chinese government has handed a note to the British legation rejecting Great Britain's demands that Tibet be not incorporated into a province of the Chinese republic, says the Daily Telegraph's Peking correspondent.

The Peking correspondent says that Dr. Sun Yat Sen, ex-president of the Chinese republic, in an interview denied he was going immediately to the United States or Europe to raise a railway loan.

He said nothing in the money market until China has a stable government. He said he was going to have said he insisted, according to the correspondent, that the removal of the capital from Peking was absolutely essential.

## S. S. ASSOCIATION CLOSES SESSIONS

California Sunday School Organization Hears Address by Woman.

The California Sabbath School Association closed its annual summer conference of three days' sessions yesterday afternoon with a final rally at the First Congregational Church.

Rev. Herbert A. Jump, pastor of the church, presided over the closing meeting and expressed the pleasure of the Oakland Sunday school teachers at being able to entertain the delegates of the convention.

The principal address of the afternoon was made by Miss Margaret Slattery of Boston, supervisor of teacher training of the Congregational Sunday school and training society. Miss Slattery, who has been one of the leaders of the convention just closed, spoke on the theme, "The Years of Crisis."

She endeavored to impress on the Sunday school teachers present the importance of their calling, and told them they should realize they were training human minds at the most important period of life. Congregational singing of old familiar hymns and a simple benediction closed the convention.

## STEINWAY

### The World's Standard Piano

During the half century of the Steinway's leadership it has had many rivals, but as yet no equal.

Most of the names of these—some of them at one time quite worthy—instruments are now but an echo of the past, the others are entirely forgotten.

When the present rivals of the Steinway will have had their little say, the Steinway will still retain its unapproachable position far above all others.

## AYRES WELCOMED IN COWBOY PLAY

"The Call for the Wild" Given  
Production at Oakland  
Orpheum.

Oakland Orpheumites are glad the "Call for the Wild," which took the hero of Sydney Ayres' playlet of that name back to the plains of Arizona, is the same call which lured Ayres back to the six-shooter and khalid drama.

Ayres knows his west and when he came back to the Orpheum yesterday afternoon, to receive a "home-folks" welcome, he brought a life-like slice of it with him.

His admirers of Ya Liberty days, who were wont to see him oftenest in the role of plainsman, filled the Orpheum at the two Sunday performances and when they had done applauding him, and following a dozen curtain calls, he confessed that he was "so full up" that he didn't know just what to say. He meant that he was "full up" on something besides Arizona dust and powder smoke. There was a good-sized lump in his throat which wouldn't down, and there was sincerity in his voice when he said he would rather have his play presented in Oakland than in the country's metropolis. In view of the noise and cordiality of that homecoming demonstration he had reason to feel as he did about it. It was some welcome.

### PRODUCTION PLEASURES.

Added to personal appreciation of Ayres was enjoyment of his original one-act playlet of Arizona ranch life. He has brought freshness, charm and a Belasco-like scenic environment to the rapid telling of a story which is ended happily for the principals by our old western friend, the mysterious shot from the darkness.

Ayres, as William Kingston, known as "Bully," by birth King, by cowboy name, comes back to his old prairie stamping-ground from a foreign principality, to which he had been called from the west by the fortunes of death and inheritance. He didn't like the kingly business, he confessed in cowboy fashion, because he couldn't stretch his arms without encroaching upon some other potentate's territory. But there is a suspicion that the playlet is misnamed, for Hope Carson, daughter of Judge Carson, owner of the Buckhead ranch, probably has more to do with his returning than "The Call for the Wild," concerning which the hero is eloquent. Kingston comes back with the inevitable accompaniment of hoof beats, to find Scott Lawson, a cattle rustler, employed on the Buckhead ranch, making violent love to Hope. From this throbbing moment until curtain fall the gunplay is all that could be desired. You can imagine the possibilities of these characters, with such a situation. Add to the cast a murderous young squaw rejected by the "bad man" of the plains, and you have a better notion of the opportunities for thrills.

Ayres' leading woman, Miss Resa Mitchell, has been happily fitted with the part of Hope Carson, daughter of Scott Lawson, who appears in the style of Trampas, "The Virginian," by Roy Clements. The role of Paucha, a Yuma squaw, has been assigned to Miss Myrtle Langford. New scenery for the production was painted by William Grabach in his Portland studio.

### SERMON IN COMEDY.

An echo of "The Passing of the Third Floor Back," in which Forbes Robertson transforms the lives of a dozen quarrelsome boarding-house inmates, is brought in the comedy playlet "Youth," with Mrs. Gene Hughes appearing, or reappearing, as a grandmother gowned in ermine, to reform the household of her Puritanical daughter, who appears older than the mother. The sermon is delivered with wholesome humor which does not dull the lesson. Mrs. Hughes, as Madame Cora Le Grand, looks as young as Sarah Bernhardt, and explains that age is "all in your form." She has "grown young in fifteen years," having begun her transformation by joining the chorus and singing tight, after becoming a grandmother. How youth and joy of living are restored to the dwarfed and embittered daughter and granddaughter is told by the clever company, headed by Mrs. Hughes.

### THE LAUGH'S THE THING.

Acrobatics, music and juggling are made tributaries to comedy at the Orpheum this week. There are comedy contortions by Bradshaw Brothers, comedy and song by Van Brothers, who are all the time funny and part of the time players on saxophones, and juggling by W. C. Fields, "the silent humorist." Fields' pool performance is something that one can laugh over weeks after he has departed.

There is a new song and some new things to tell about his father. There is delight among the Orpheumites this week over his retention on the bill, his fifteen minutes being as enjoyable to those who laughed at him last week as to his new confidants.

Carl McCullough, "the dynamic comedian," brings a collection of foot-light impressions, ranging from a sales-lady impersonation to David Warfield in the act of singing. His dainty songs complete a breezy act.

## ARCHITECT MEAD AND WIFE ARE THREATENED

NEW YORK, Sept. 2.—William Rutherford Mead, famous throughout the country as an architect and head of the well-known firm of McKim, Mead & White at 160 Fifth avenue, has been threatened with instant death unless he meets the claims of unnamed persons believed by some to be members of a secret society and by others to be labor fanatics with grudge against the designer of many of New York's biggest skyscrapers.

The threat includes Mrs. Mead, a leader in New York society. It came in the form of a folded postcard and opens with this ominous greeting: "Your time has come. Beware! You and your wife are to be blown to pieces."

The postal letter was read by Mrs. Mead by accident. It caused immediate nervous collapse.

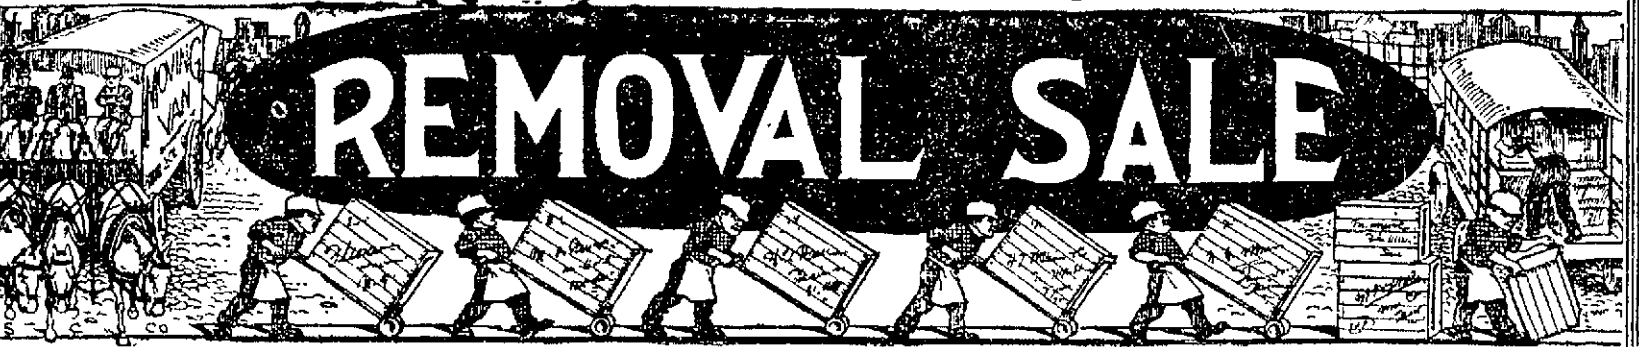

## RURAL POSTMEN ARE TO GET HIGHER PAY

WASHINGTON, Sept. 2.—Postmaster-General Hitchcock has issued, under recent authorization of Congress, an order increasing on September 30 the salaries of about 42,000 rural letter carriers. The compensation of the carriers on standard routes, averaging about twenty-four miles in length, of which there are about 30,000, will be increased from \$1000 to \$1100 a year, with proportionate increase for carriers on special routes. The order will involve additional expenditures of about \$4,000,000 a year. This is the second increase in salaries that has been made during the present administration. An advance from \$900 to \$1000 a year for standard routes, with proportionate increase in shorter routes, having been authorized in 1911.

## WARM WELCOME TO GOV. JOHNSON

Bandannas Useful Underneath Blazing Sun in Kansas.

TOPEKA, Kas., Sept. 2.—Men and women who toll, and their children, have a champion in the Progressive party, Governor Johnson told an audience today at a Labor day celebration in a local park.

This was the governor's first appearance in Kansas since he was nominated for the vice-presidency. Bandanna battle flags were much in evidence and as the mercury has broken altitude records in seven out of the nine days and today appeared to be going after a new mark, the insignia proved useful as well as ornamental.

"All over the country today thinking men and women are groping about trying to solve the great human problem," the governor said. "It is the great human problem to which the Progressive party under the splendid leadership of Theodore Roosevelt is dedicated; the problem of bringing a little nearer the under man to his more fortunate fellows by a little greater effort and sympathy and aid; the problem of giving little children, victims of misfortune, and want, the opportunities in life that God meant for us all; the problem of lightening the load of the overworked woman, of lifting from despondency and darkness the overburdened man."

## KNOWLAND HELPED RICHMOND HARBOR

Mayor Owens of Richmond  
Commends Candidacy  
of Alameda.

RICHMOND, Sept. 2.—"When the people of this city were planning for the development of the inner harbor we had difficulty in getting the proposition before the government officials. Finally we took up the situation with Congressman Joseph R. Knowland and within 30 days there were government engineers on the job and a survey was being made."

This is a statement made today by J. C. Owens, Mayor of Richmond, who with Mayor D. W. McLaughlin were prominently identified with the committee which first brought up the subject of the inner harbor.

"The people of Richmond only regret that they are unable to vote for Congressman Knowland at this time," said McLaughlin.

"He has been of great service to us and we know that he is doing the same thing for Oakland. We feel that it would be bad policy to swap horses in the middle of the stream, as Alameda county would be doing if it failed to return Knowland to Congress. Richmond is looking up to get a \$500,000 appropriation and Knowland is the man who knows how to do things at Washington. We found that out and there is the strongest sentiment in favor of him in this vicinity."

## BROUGHT TO LIGHT

Oakland People Receiving the  
Full Benefit.

There have been many cases like the following in Oakland. Everyone recognizes the experience of people who statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

George R. Scott, 634 Thirty-seventh street, Oakland, Cal., says: "Doan's Kidney Pills have given entire satisfaction in my case and for that reason I value them highly. In 1907 I gave a statement for publication regarding my experience with them. At this time I gladly endorse them again. I doctored for many years in an effort to get relief from pain in my back and kidneys. No improvement was noticeable, however, until finally I discontinued the use of all medicine. Reading about Doan's Kidney Pills I was impressed and procuring a supply, I began their use. Relief soon followed and almost before I realized it my back was free from pain and soreness. Since then when I have been in need of a kidney medicine, I have taken Doan's Kidney Pills and they have never failed to help me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## HERO OF THE HORN AND THE BASS DRUM

Congressman Stanley Comments on Roosevelt the Man of Noise and Bluster.

HENDERSON, Ky., Sept. 2.—Replying to Colonel Roosevelt's St. Johnsbury, Vt., speech, in which the Sherman anti-trust law and the Stanley steel investigation committee's recommendations in regard thereto were criticized, Representative Stanley, chairman of the committee, issued a long statement last night declaring "the Stanley committee hold no brief for the Sherman act," and that "the chairman of the committee has repeatedly said the Sherman law, of and by itself, is not sufficient to remedy existing evils."

"The fact that the law has not been enforced by a Republican administration is, however, no good reason for condemning it," continues the statement. "The Sherman act fearlessly and capably enforced is a sword; Taft has struck only with the scabbard and Roosevelt never attacked anything in his life except with a horn and a bass drum."

"For the first time since the Sherman act was written the Stanley committee has proposed amendments with teeth in them."

## ONLY 'CASCARETS' IF CONSTIPATED

Gently Clean Your Liver and  
Constipated Bowels While  
You Sleep.

Take a Cascaret tonight and thoroughly cleanse your liver, stomach and bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels.

## SOCIALISTS SPEAK IN PASADENA PARK

PASADENA, Sept. 2.—Socialist meetings are not necessarily political in nature, according to Mayor Thum, who has granted local socialists a permit to hold meetings in Central Park on Sunday. Formerly only religious meetings were allowed to be held there. There was a socialist meeting in the park yesterday

and when the Mayor was asked why he permitted it he said: "They told us that the addresses would be instructive lectures and not in the nature of political gatherings. We shall not allow them to lambast each other and talk of graft, or anything like that. These are to be just plain modest lectures on socialism."
